# Bolero<sup>6</sup>

The Bolero 6 is intended as a first paraglider, suitable for school use but also for regular pilots who want to fly relaxed. The glider gives just the right amount of feedback to enable pilots to develop instinctive flying skills in a safe, comfortable and progressive manner.

The Bolero 6 features the second iteration of EPT (Equalized Pressure Technology), our numerical method of calculating the best possible airfoil parameters for any given profile. First introduced in the Bolero 5, EPT brought many beginner-friendly improvements, such as a long and progressive brake range and a low stall speed. The Bolero 6 features further technological improvements that are reflected in easier take-off behaviour, improved stability and better handling.

Overall, we feel we have succeeded in the challenging task of improving on the Bolero 5.

| Size                                | XXS   | XS    | S      | M      | L      | XL      |
|-------------------------------------|-------|-------|--------|--------|--------|---------|
| Flat surface area (m <sup>2</sup> ) | 22.32 | 24.22 | 26.36  | 28.60  | 30.93  | 34.10   |
| Aspect ratio (flat)                 | 4.8   | 4.8   | 4.8    | 4.8    | 4.8    | 4.8     |
| Cell number                         | 36    | 36    | 36     | 36     | 36     | 36      |
| Weight in flight (kg)               | 55-80 | 65-90 | 75-100 | 85-110 | 95-120 | 105-135 |
| Certification                       | A     | A     | A      | A      | A      | A       |
