Osprey: the small tandem

The Osprey is a small tandem for pilots who fly with light passengers, and / or in stronger winds. It was conceived to meet the demands of professional tandem pilots, but its accessible characteristics mean that it appeals equally to leisure pilots.

Product highlights:

- easy to manage on take-off (unique 34m² size)
- easy landing due to good energy retention and a well-defined flare window
- wide speed range and high max speed (11cm positive trim)
- 2cm negative trim
- stable even at high speed (EN B 100-210kg)
- direct and responsive handling

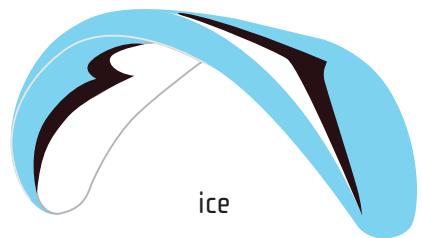

Osprey

Technical specification

Size	34
Flat surface area (m ²)	34.00
Aspect ratio (flat)	4.8
Cell number	36
Weight in flight (kg)	100-210
Certification (Free flight)	EN / LTF B

Colour

G | N
